
Soap Gutter Unfiltered Short Fiction

tm3 - university of arizona - the unfiltered water, entering from main j, through valve e, passes up into the filter tank a, thence down-ward through the gravel bed c, perforated plate b, and through valve f to the filtered water main i, through which the filtered water is carried to the reservoir, where it is stored for use. fig. 2 shows the manner in which the gravel beds are cleansed of the impurities deposited, the ...
